My dear commissioners of the FCC,

I respectfully request that you reject the NAB's petition 01-160. I have been a subscriber to XM Radio since November 2003 and I enjoy the things they offer such as the great talk programs and all the music and other variety programming. Part of what I pay for is the local traffic and weather. I drive a lot and it is a pleasure to not have to attempt to find this information locally. I might can find local stations, but most are a symphony of local commercials which mean nothing to a traveler. XM keeps me entertained and informed for an entire adventure, going and coming. Please don't stifle XM's right to broadcast the things which inform and entertain me, and which I voluntarily pay for, specifically the local traffic and weather. Thanks
